Help Keep Beverly Daycare Society at Rundle School!

RE: Letter of Support – Protecting 124 Licensed Childcare Spaces in Northeast Edmonton

Dear Elected Officials and Government Representatives,

I am writing as a parent, guardian, or community supporter of Beverly Daycare Society and Family Resource Centre to express my support for keeping this important childcare organization at the former Rundle School in northeast Edmonton.

For 54 years, Beverly Daycare Society has provided affordable, high-quality childcare to generations of families in our community. As a not-for-profit organization, the Centre has created a safe, nurturing, and welcoming environment where children can learn, grow, and build meaningful relationships with their educators and friends.

I am concerned about the uncertainty surrounding the Centre's future at Rundle School and the potential impact this could have on the 124 licensed childcare spaces available to families in our community.

For families like ours, having reliable childcare close to home is essential. The Centre supports parents who work, attend school, and contribute to our community. Losing access to these established services would create significant challenges for families and disrupt the relationships children have developed with their educators and peers.

Beverly Daycare Society has also invested approximately $200,000 in improving its classrooms, security systems, and outdoor play spaces through grants, fundraising, and community support. These investments have created an exceptional environment for children that deserves to be preserved.

I respectfully ask the Government of Alberta and our elected representatives to:

1. Prioritize keeping Beverly Daycare Society at Rundle School, where it has successfully operated since 2018.
2. Work collaboratively with Alberta Infrastructure and all relevant parties to secure a long-term arrangement that protects the Centre's future.
3. Explore reasonable alternatives and solutions that preserve the existing childcare spaces and the investments already made in this publicly owned facility.

Our community needs these 124 childcare spaces. We are asking government representatives to help protect the childcare services, dedicated educators, and welcoming environment that families have come to depend upon.

Please help ensure that Beverly Daycare Society can continue serving children and families in northeast Edmonton for generations to come.

Thank you for your consideration and support.

Sincerely,
